

LOOP ALARM SYSTEMS

Specialized security and display systems for high-end merchandise

WG Security Products Inc. is proud to introduce Loop Alarm systems; a new line of specialized security products geared for greater protection of your high-end electronic merchandise. You can now feel free to display your merchandise to customers in a variety of retail environments with the peace of mind that comes with WG products.

Loop Alarm products provide WG reliability with an aesthetic look and opportunity to increase sales with advanced media technology including an interactive presentation platform. Loop Alarm Systems provide audible alarms to detect tampering. Over the coming weeks and months, WG will be rolling out specific loop alarm products for a variety of merchandise. Take advantage of the newest security measures presented by WG, one of the world leaders in EAS technology and video integration.
