Available in 3 Alarm

## Bandit II IR Smart Tag

### 01 / FAST & EASY

The WG Bandit II's slide lever feature, when engaged activates the IR smart tag. When the tag has been deactivated the slide will automatically unlock, allowing for an easy release.

*(One Handed Operation)*

### 02 / FAST & EASY

The Bandit II IR smart tag can only be deactivated with the patented WG IR detacher or a WG handheld remote control. The remote control has a security feature that allows the remote to remain activated for a pre-determined period of time. Bandit II's full-size plunger with anti slip backing covers a greater surface area and holds the tag firmly in place

### 03 / SMART

Our Wi-Fi visual and audible alarm activates when the Bandit II tag alarms. Cloud based data storage is available at no additional charge via Wi-Fi access. This allows the LP or AP departments to conduct forensic investigations and track alarms with video by store location, department and time of day. The Bandit II is available in 58kHz and 8.2 kHz frequencies and can be deactivated with IR or super lock detachers

Technology: A.M or R.F

Detachers: Smart IR Detacher, StandardLock or Superlock Detachers

## IR Smart Detachers

The IR Smart Detacher is a uniquely designed detacher for the patented WG four-alarm tagging options, which makes our Infra Red (IR) smart tags the most effective product protection tool on the market. WG's Smart detacher technology emits a unique coded IR signal that disarms the smart tag. It also contains a super lock magnet that detaches the tag in one easy motion, any attempt to use any other detacher or magnetic material to detach the IR Smart Tag will trigger an alarm activation.

# Self-Alarming Tag Overview

Self alarming tags have been in the marketplace for years, WG has taken the technology to the next level with the development of Infrared (IR) Smart Tags. The industry's only 4-alarm infrared protected tags and detachers. IR Smart Tags are the benchmark for superior product protection for any merchandise category. WG's selection of Smart Tags provides multiple layers of protection for any retail format. WG has a solution for merchandise such as luggage and women's handbags where the pin and tag mechanism isn't viable solution. WG's

## Standard Self-Alarming Tags

The standard self-alarming tags are available in various styles, that range from our Pebble, Pencil and to the Cicada design. These tags are ideal for high-end clothing and other merchandise where a pin and tag provide effective protection.

## IR Smart Tags

WG's IR-based technology tags are the industry's only true 4 alarm smart tag, they are tamper proof and visually acceptable in the most demanding culture. They are available in both 58kHz and 8.2 RF frequencies.

## Ninja Plus Tags

WG's wireless, cable-less Ninja Plus Tag provides multi-alarm capability for any boxed merchandise. The Ninja Tag is easy to use and comes with up to four alarm levels, revolutionizing
