

The start of something new

Mini Lanyard SuperLock Detacher

SuperLock Compact Detacher

The **SuperLock Compact Detacher** is a powerful and easy-to-use security tag removal tool designed for efficient operation at the checkout counter. Its compact size and durable construction allow cashiers to quickly remove security tags while maintaining smooth point-of-sale transactions.

Key Features

- **Compact and Powerful Design** – A small but highly effective detacher that provides strong magnetic release for compatible security tags.
- **Coated Steel Cord Attachment** – Secures the detacher to the checkout counter, preventing loss while keeping the tool easily accessible for staff.
- **Improved Handling at Checkout** – Ideal for removing tags from items such as bags, pouches, hard goods, or large textile products where moving the merchandise into a fixed detacher can be difficult.
- **Durable Handheld Housing** – Robust and ergonomic case designed for daily retail use.
- **Wide Tag Compatibility** – Works with **SuperLock security tags** including pencil, lanyard, and flap styles, and also opens tags with conventional magnetic locks.
- **Maintenance-Free Operation** – No power supply required and designed for long-term use without wear or maintenance.

Specifications

- **Dimensions:** Diameter 42 mm × Height 37 mm
- **Product Code:** WG-D905

Applications

Ideal for **retail checkout counters**, providing a reliable and convenient solution for quickly removing compatible security tags during the point-of-sale process.
