

Bandit IR Smart Tag

The Bandit IR Smart Tag is specifically designed for advanced security of boxed merchandise and is easy for your employees to use. It boasts faster application and removal by an authorized detacher than any other EAS box tag, and can be equipped with up to four alarm levels to safeguard against theft or tampering.

Four Security Levels:

Features:

- ◆ Bandit Tag easily attaches to boxed merchandise
- ◆ With a push of a button the tag is armed
- ◆ The plunger on the bottom of the tag detects when the tag is resting against the surface
- ◆ Boxes can be arranged in an aesthetically-pleasing manner due to Bandits unobtrusive design
- ◆ Disarmed at point-of-sale is fast and easy with a WG IR detacher
- ◆ The Bandit IR Smart Tag is our exclusive patented series IR Smart Tags. Other companies offer multi alarm tags, but WG is the only company in the industry to break the glass ceiling of three alarms and venture into 4 & 5-alarm territory. By using infrared binary coded technology, we have successfully added an undefeatable layer of security to these tags.
- ◆ Composed of durable Polycarbonate plastic, each tag houses a complex ferrite and smart circuitry.
- ◆ The Bandit IR Smart Tag is without a doubt the most advanced smart tag in the industry.
- ◆ The Bandit IR Smart Tag functions with any 58kHz AM or 8.2Mhz EAS and RFID system.

- ◆ Alarms when tampered with or illicitly removed
- ◆ Alarms when entering an EAS detection field
- ◆ Triggers the alarm of any 58kHz EAS System
- ◆ Prevents removal without a patented WG IR detacher
- ◆ Available with Active RFID chip set

To arm press the on button, place the Bandit tag on the box the plunger engages then arms. The Bandit tag disarms quickly with a WG IR detacher!

Measurements:

Width: 1.377" / 34.97mm
Length: 2.7" / 70mm
Thickness: 0.5" / 14.10mm

Band Length S 4" / 101mm Expands to 8"/202mm
Band Length L 10" / 254mm Expands to 20"/508mm

Complete protection!
