

## Bottle Tag 3 or 4 Alarm

Premium Champagnes, Cognacs, Whiskeys, and exquisite wine blends are prime targets for theft. The more exclusive these products, the more appealing they become to shoplifters. Such high-end items demand a more robust and secure tagging solution than conventional labels or hard tags.

The 3 and 4 Alarm Bottle Tags. Equipped with a sensor, this innovative tag detects tampering or unauthorized removal. If the tag is interfered with or if a shoplifter attempts to remove it, the tag-alarm is triggered instantly.

The 3-Alarm Bottle Tag is compatible with a super Lock detacher for added convenience. Not only does it provide heightened security, but it is also reusable, making it a cost-effective solution.

The 4-Alarm Bottle Tag is compatible with a WG IR super Lock detacher for an extra layer of protection added. Not only does it provide heightened security, but it is also reusable, making it a cost-effective solution.

Available in two sizes:

A larger size designed for Champagne.

A regular size suitable for wine and spirits.
