

The start of something new

3 & 4 Alarm Bottle Tags

Product Description

Premium champagnes, cognacs, whiskeys, and fine wine blends are frequent targets for retail theft due to their high value and resale potential. The 3 and 4 Alarm Bottle Tags are specifically designed to provide a stronger level of protection than conventional labels or standard hard tags.

These innovative bottle tags incorporate integrated alarm technology with a built-in sensor that detects tampering or unauthorized removal attempts. If the tag is interfered with or a shoplifter attempts to remove it, the internal tag alarm activates immediately, providing an additional layer of security alongside the store's EAS detection system.

Key Features

- Multi-alarm protection for high-value bottled merchandise
- Integrated sensor detects tampering or unauthorized removal
- Instant audible alarm activation if interference is detected
- Reusable design for long-term cost efficiency
- Durable construction suitable for retail environments
- Designed specifically for wine and spirits protection

3-Alarm Bottle Tag

- Compatible with standard Super Lock magnetic detachers
- Provides strong merchandise protection with integrated alarm capability

4-Alarm Bottle Tag

- Compatible with WG IR Super Lock detachers
- Additional protection layer through enhanced alarm functionality

Installation / Operation

The bottle tag securely attaches around the neck of the bottle, protecting the product without damaging the packaging. If the tag is tampered with or passes through the EAS detection system without proper removal, an alarm is triggered. At checkout, the tag is removed quickly using a compatible detacher.

Technical Specifications

- **Technology:** AM (Acousto-Magnetic)
- **Compatibility:**
 - 3-Alarm Tag – Super Lock magnetic detacher
 - 4-Alarm Tag – WG IR Super Lock detacher

Available Sizes

- **Regular Size:** Designed for wine and spirits bottles
