

The start of something new

# 3 Alarm Ninja Plus

## 3 Alarm Ninja Plus Tag

The **3 Alarm Ninja Plus Tag** is a high-security retail protection solution designed specifically for boxed and packaged merchandise. With three independent alarm triggers and a durable design, the tag provides strong deterrence against theft and tampering while allowing products to remain openly displayed on the sales floor.

### Key Features

- **Triple Alarm Protection** – Activates an alarm when passing through EAS detection systems, when the cable is cut or tampered with, or when forced removal is attempted.
- **Integrated Audible Alarm** – A built-in high-decibel alarm immediately sounds if tampering or unauthorized removal occurs.
- **EAS System Compatibility** – Works seamlessly with standard RF or AM Electronic Article Surveillance systems at store exits.
- **Secure Cable Attachment** – Designed to wrap securely around boxed or packaged merchandise without damaging the product or packaging.
- **Durable Reusable Construction** – Built for long-term retail use with rugged housing and extended battery life.

### Applications

Ideal for protecting **boxed or packaged merchandise** such as electronics, gaming accessories, tools, small appliances, and other retail products that require strong product-level security.
