

The start of something new

IR 4-Alarm Pebble Tag

Product Description

The IR 4-Alarm Smart Pebble Tag is an advanced Electronic Article Surveillance (EAS) solution designed to deliver maximum protection for high-value merchandise. Combining AM EAS detection with an integrated infrared (IR) alarm system, this tag provides multiple layers of security against tampering and unauthorized removal.

Equipped with internal sensors, the Smart Pebble Tag detects interference such as cutting, forced removal, or tampering attempts. If the tag is compromised or if the protected item passes through an EAS detection system without proper removal, the integrated audible alarm is immediately activated, alerting store personnel and deterring theft.

The compact “pebble” design provides strong protection while maintaining a discreet and lightweight profile suitable for a wide range of retail products.

Key Features

- Four alarm protection for maximum merchandise security
- Integrated audible alarm with infrared (IR) functionality
- Tamper detection for cutting or forced removal attempts
- Compact pebble-shaped design for discreet protection
- Strong magnetic Super Lock mechanism
- Durable construction for repeated retail use
- Compatible with WG IR Super Lock detachers

Installation / Operation

The Smart Pebble Tag attaches securely to merchandise using a standard pin and locking mechanism. If the tag is tampered with, removed improperly, or passes through the EAS detection system without proper removal, the integrated alarm will activate immediately. At checkout, the tag is safely removed using a compatible WG IR Super Lock detacher.

Technical Specifications

- **Alarm Type:** Four alarm protection
- **Technology:** AM (Acousto-Magnetic) with IR alarm system
- **Lock Type:** Super Lock magnetic mechanism
- **Tag Construction:** Durable ABS housing
- **Compatibility:** Standard EAS detection systems and WG IR Super Lock detachers

Typical Applications

- High-value apparel and fashion items
- Luxury retail merchandise
- Accessories and specialty goods
- Department stores and premium retail environments
