

Volcano-Detacher

Super Lock Detacher – Technical Specification Sheet

Product Name: Super Lock Detacher

Application: Designed primarily for shell tags; compatible with all EAS tags utilizing regular or high-strength magnetic Super Lock mechanisms.

Product Description

The Super Lock Detacher is a durable, high-performance magnetic detacher designed for retail checkout environments. Engineered for reliability and ease of use, it quickly and efficiently removes compatible EAS security tags without the need for power. Its compact tabletop design allows for secure installation at point-of-sale stations while maintaining a clean and professional appearance.

Key Features

- Compatible with standard and high-strength magnetic Super Lock EAS tags
- Optimized for shell tag applications
- Strong magnetic detaching mechanism
- Compact and durable construction
- Tabletop mounting capability
- Hidden threaded rod mounting option beneath the counter
- No electrical power supply required
- Silver metallic finish for durability and professional appearance

Installation

The detacher is designed for tabletop installation and can be securely mounted using adhesive or a threaded rod system installed through the underside of the counter for concealed mounting.

Technical Specifications

- **Dimensions:** 75 mm × 35 mm
- **Weight:** 0.4 kg
- **Finish:** Silver metallic
- **Mounting Type:** Tabletop mounted (adhesive or threaded rod)
- **Power Requirement:** None (passive magnetic system)

Typical Applications

- Retail checkout counters
- Apparel stores
- Department stores
- Any retail environment using magnetic Super Lock EAS tags

Packaging

Standard protective packaging for safe transport and storage.
