

# Slip Ring Detacher

## Super Lock Detacher – Technical Specification Sheet

**Product Name:** Super Lock Detacher

**Application:** Designed for use with all Super Lock EAS tags, including Pencil, Shell, Lanyard, Flap, and similar tag types.

### Product Description

The Super Lock Detacher is a durable, high-performance magnetic detacher engineered for retail checkout environments. It is designed to open EAS tags equipped with both conventional magnetic locks and stronger Super Lock magnetic locking mechanisms. The unit provides reliable performance while remaining completely maintenance-free.

### Key Features

- Compatible with all Super Lock EAS tags (Pencil, Shell, Lanyard, Flap, etc.)
- Works with both conventional magnetic locks and high-strength Super Lock mechanisms
- Maintenance-free operation
- Durable construction for retail point-of-sale environments
- Tabletop mounting with enclosed slip ring
- Flush mount installation option (approximately 2 mm installation height)
- Includes plug closure to prevent unauthorized use
- No power supply required

### Installation

The detacher can be installed on a tabletop using the enclosed slip ring or mounted flush into the counter with an approximate 62 mm circular table cut. The opener may also be securely attached using a threaded rod hidden beneath the table for a clean installation.

### Technical Specifications

- **Table Cut (Flush Mount):** 62 mm circular cut
- **Installation Height (Flush Mount):** Approximately 2 mm
- **Mounting Type:** Tabletop or flush mount installation
- **Power Requirement:** None (passive magnetic system)

### Typical Applications

- Retail checkout counters
- Apparel stores
- Department stores
- Retail environments using Super Lock EAS security tags

### Packaging

Standard protective packaging for safe transport and storage.
