

Micro Pencil Tag

Our smallest acoustomagnetic Pencil hard tag for regular passage widths. Magnetic superLock locking mechanism for improved security. The tag is one of the smallest in the market but due to its optimized ferrite technology it offers same exit width like the much larger resonator tags at about half the size of its competitors.

Acoustomagnetic component:
Precisely tuned to 58 kHz ferrite

Compatible with all SuperLock detachers.

Length: 41.9 mm
Weight: 8 g

Standard colors: white, black or gray

Art. Codes:
TAG-MPEN 58-GS = grey
TAG-MPEN 58-BS = black
TAG-MPEN 58-WS = white

This tag is also available in RF 8.2 MHz
TAG-MPEN 8.2-GS = grey
TAG-MPEN 8.2-BS = black
TAG-MPEN 8.2-WS = white

Can be used with "garment friendly" polished smooth pins or for maximum protection and even higher security with grooved pins.

Pins in boxes a'1000 pcs.

PIN F	= Pin Flat Smooth
PIN-F-G	= Pin Flat Grooved
PIN D	= Dome Grooved Pin
PIN-D-G	= Pin Dome Grooved (grooved)
P01 / 19S	= Pin Flat 19mm for thicker materials i.e. shoes, Leather etc

Shell Tag & Shell Ink Tag

Acoustomagnetic hard tag for large exits widths in special, tamper resistant shell tag technology with SuperLock security lock. Very safe against manipulation by shoplifters. At the same time it treats the garment with greatest care because the larger pin surface distributes the weight to a larger space. That avoid an extension or wear our of the stitched hole through the fabric. Also the needle is inaccessible for shoplifters because of the larger diameter of the tag pin.

Shell tag comes complete with tag and smooth, polished pin.

Shell ink

are versions of the Shell tag with three additional ink cartridges' hidden inside the tag. Only at a serious attempt to tamper the tag these cartridges break and release the ink to damage the merchandise and color the shoplifter.

Professionals know that these tags are secure and make it impossible to use or sell the stolen merchandise. Therefore they avoid them and once they became colored, they will not "revisit" the store.

Acoustomagnetic component: Precisely tuned to 58 kHz ferrite

dimension: 54x54x22 mm

Standard colors: black or grey Ink colors:

Red, Yellow, Blue

Art. Codes:

TAG SHELL 58 BS	= black
TAG SHELL 58 GS	= grey
TAG SHELL INK 58 BS	= black + ink
TAG SHELL INK 58 GS	= grey + ink

This tag is also available in radio frequency (8.2 MHz)

TAG SHELL 8.2 BS	= black RF
TAG SHELL 8.2 GS	= grey RF
TAG SHELL 66 BS	= black RF 66KHz
TAG SHELL INK 8.2 BS	= black + ink RF
TAG SHELL INK 8.2 GS	= grey + ink RF
