

The start of something new

2 Alarm Pinless Tag

Product Name: 2-Alarm Security Tag

Application: Designed for enhanced retail protection using dual alarm functionality.

Product Description

The 2-Alarm Security Tag provides increased protection by combining traditional EAS detection with an integrated audible alarm. If the tag is tampered with or passes through an EAS detection system without proper removal, an alarm will activate, providing an additional layer of security against theft.

Key Features

- Dual alarm protection (EAS detection and audible tag alarm)
- Strong magnetic locking mechanism
- Tamper-resistant design
- Durable construction for repeated use
- Compatible with standard retail detachers

Installation / Operation

The tag is attached to merchandise using a standard pin and clutch mechanism. It is removed at checkout using a compatible magnetic detacher.

Technical Specifications

- Alarm Type: Dual alarm system
- Lock Type: Magnetic Super Lock
- Tag Construction: Impact-resistant ABS housing
- Compatibility: Standard EAS detection systems

Typical Applications

- Apparel stores
- Electronics and high-value merchandise
- Department stores
- Retail environments requiring enhanced security
