Introduction: Experience a new era in retail security with the WG One-Piece Smart Tag—a game-changer that simplifies the tagging process, enhances customer safety, and fortifies your merchandise against theft.

Key Features:

Integrated Pin Technology:

Streamline the tagging process from two steps to one.

Empower retailers to focus more on sales, not in-store tagging.

Safety First Design:

Integrated pin allows worry-free removal at self-checkout.

Sleek, rounded edges and a sloping design make unauthorized removal nearly impossible.

Available in 58 kHz or 8.2 MHz technology for maximum protection.

Tamper-Proof and Efficient:

Most effective, tamper-proof tag in the industry.

One-piece design eliminates the need to sort pins separately.

Speeds up the checkout process with easy tag removal at the point-of-sale.

RFID Version Available: Offers item-level protection upon request.

Revolutionary Security Technology:

Audible/visual remote alarm alerts from up to 100 feet away.

Proactive in-store prevention to deter theft and minimize potential escalations.

Complimentary cloud storage:

Empowers LP or AP departments to forensically investigate and track alarm activity by store, department, and time of day.

Get Your WG One-Piece Smart Tag Today: Experience the future of retail security and efficiency. Visit WG One-Piece Smart Tag <https://www.wgspi.com/intelligent-remote-software> to explore our innovative solutions and stay steps ahead of retail challenges.

Don't let theft compromise your profits—choose WG One-Piece Smart Tag for unparalleled security and peace of mind.
