

The start of something new

# IR 4 Alarm Pinless Tag

## Overview

The 4-Alarm Pinless Tag delivers advanced, multi-layered protection for high-value merchandise. Designed with a sleek, modern profile and premium materials, it combines maximum security with ease of use and retail-friendly aesthetics.

## General Operation

The tag is applied directly to merchandise in-store and triggers an alarm under multiple unauthorized conditions, including forced removal, tampering, or entry into an active EAS detection field (58 kHz or other supported frequencies) without proper deactivation.

## Key Features

- **4-Alarm Security System**  
Multiple independent alarm triggers provide enhanced protection against theft, tampering, and improper removal.
- **Advanced Pinless Design**  
Eliminates the need for pins while maintaining a strong, secure hold on merchandise.
- **Premium, Low-Profile Construction**  
Sleek, modern design manufactured with high-end materials to complement premium retail environments.
- **Adjustable Clip Mechanism**  
Accommodates a wide range of material thicknesses for versatile product application.
- **Minimizes visual impact while maintaining durability and strength.**
- **EAS Compatibility**  
Optimized for 58 kHz systems and compatible with additional frequencies as required.
- **Available in 2 Alarm, 3 Alarm, 4 Alarm IR, eco 4 Alarm**
- **Bubble Remote Alarm**

## Benefits

- Increased theft deterrence through multi-alarm redundancy
- Faster application and removal for store associates
- Reduced merchandise damage compared to traditional pinned tags
- Ideal for apparel, accessories, and high-risk retail
